Surfaces Setup Instructions:

1. Close all other programs and insert Surfaces CD. The CD should automatically start the installation wizard.
2. Surfaces will then recommend that you close all other applications. Click OK.
3. Click the installation icon in the upper left if you are satisfied with the default destination directory.
4. When the installation wizard has completed, do not remove the disc. Open the program.
5. Surfaces will ask you to accept the EULA. You will then be asked to select the "root folder" (the drive the disk is in, usually the d:\ drive). It will then install other files that the program needs to run properly. Click install.
6. When Surfaces has completed the installation process. You may be prompted to start the activation process. If not go to help and select "Private Licensing – Obtaining my ACTIVATION KEY"
7. Click NEXT and you will be asked to submit your SEED KEY online. It is best to e-mail it to Support@flightlevelengineering.com directly by clicking "Only Copy Seed Key to Clipboard" and addressing an email to the address listed above. In the subject heading type SURFACES ACTIVATION. In the body, paste (CTRL-V) your seed key you must also include a copy of your Serial Number (Below) and send to Support@flightlevelengineering.com .
8. Support will respond within 24 hours with your activation key.
9. After obtaining your activation key go to Help > Private Licensing – Entering my ACTIVATION KEY.
10. Check that you understand the license and enter your activation key and click Activate!
11. To get started using Surfaces, go to help and check out the complimentary tutorial videos.
12. Register your copy of Surfaces to receive any updated version. Go to www.flightlevelengineering.com > Contact Us > Under Comments Please include your Serial #, Mailing Address, Date of Purchase, Phone # and any other comments you would like to share.
